Education

Raj Kumar Goel Institute of Technology

Bachelor of Technology in Computer Science(Internet of Things)

Sep. 2020 – June 2024

Ghaziabad, Uttar Pradesh

Relevant Coursework

- C++
- React.js
- MERN Stack
- TailwindCSS
- Node.js
- Design Thinking
- Responsive Design
- Figma

Virtual Experience

Accenture

August 2024 – August 2024

Product Designer

- Analyzed interaction patterns in existing design through simulation, identify three main pain points that cause friction in the navigation process, and provide facilitating solutions for traveling users.
- Made interactive content available to increase daily interaction with the platform.
- Communicated design decisions to stakeholders to ensure clear and consistent project goals and decision-making.

Projects

Food Delivery App | *MongoDb, Express.js, React.js, Node.js*

September 2024

- Established two distinct portals, Customer portal for easy food ordering and an Admin interface for item and delivery status management.
- Created two portals, Admin portal in which admin can change the status of food preparing and delivery and can add and delete food items from the website, Customer portal in which customer can order the food.
- Integrated Stripe payment gateway API into the platform ensuring secure transactions while reducing checkout time.

Frontend Projects | *HTML, CSS, JavaScript, React.js*

July 2022

- Built 12 front-end projects to enhance HTML, CSS, React, and Tailwind CSS skills. Gain hands-on experience with product-based design. Strong understanding of end-to-end development including Node.js.
- Designed 8-10 web projects from FrontEnd Mentor's collection, leading to a personal achievement of mastering new frameworks.
- Constructed 2 parallax web pages to create an engaging user experience with scrolling effects.
- Created 2 clone websites to replicate functionality and design, develop front-end technology and responsive designs using HTML, CSS, and JavaScript.

UI/UX Design Projects | *Figma, Wireframing, Prototyping*

- Designed approx 5 UI/UX projects using Figma, which emphasizes user-centered design.
- Used wireframing techniques in 3 designs to create intuitive processes to get better user experience.
- Made design by design to provide the best user experience of the product. Apply this template to multiple websites to improve usability and accessibility.
- Use various plugins to increase performance and enhance user experience.

Technical Skills

Languages: Python, Java, C, C++, HTML/CSS, JavaScript, JSON, Express.js

Developer Tools: VS Code, MongoDB Atlas, Postman, Nodemon, Vite, Git

Technologies/Frameworks: React.js, Node.js, Express.js, WordPress

Languages

- English - Proficient
- Hindi - Native

Accomplishments

- GeeksforGeeks - Solved over 100+ questions with C++.
- HackerRank - 4 stars in Java, C++, C.
- Achieved 3rd prize in Communication and Skill development skit organized by the college partnering with ImageBoosters ltd.
